

## Cosmetic Peptide Palmitoyl Tripeptide-1 For Skin Smooth CAS 936544-53-

5

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Palmitoyl Tripeptide-1
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T, MoneyGram
- Supply Ability: 4000kg/Month

### Product Specification

- Product Name: Cosmetic Peptide Palmitoyl Tripeptide-1 For Skin Smooth
- CAS No: 936544-53-5
- Outlook: White Powder.
- Assay: 99%Min
- Shelf Life: 2 YEARS
- Storage Temperature: Cool Dry Place
- Molecular Formula: C<sub>37</sub>H<sub>61</sub>N<sub>9</sub>O<sub>4</sub>
- MW: 695.94
- Highlight: **Skin Smooth Palmitoyl Tripeptide-1, Cosmetic Palmitoyl Tripeptide-1**

## Product Description

### What is Cosmetic Peptide Palmitoyl Tripeptide-1 for Skin Smooth CAS 936544-53-5?

#### Basic Information:

|              |   |
|--------------|---|
| Product Name | Cosmetic Peptide Palmitoyl Tripeptide-1 for Skin Smooth CAS 936544-53-5 |
| CAS          | 936544-53-5   |
| Purity       | 99%min  |
| MF           | C37h61n9o4  |
| Storage      | Cool Dry Place  |
| Deliver Time | Within 24 Hours After Receiving The Payment                             |
| MOQ          | 1KG   |

#### Brief Introduction:

This peptide sequence is found in proteins of the extracellular matrix such as the  $\alpha$ chain of collagen, and it is believed to be released during wounding and inflammation. A feedback stimulation of collagen repair has also been proposed for this peptide, but the main benefit to photoaged skin is believed to be the enhanced delivery of copper. It is found to have the beneficial effects on collagen stimulation.

Palmitoyl Tripeptide-1 is a matrikine, it stimulates collagen and glycosaminoglycan synthesis. Palmitoyl Tripeptide-1 reinforces the epidermis and diminishes wrinkles.

#### Product Image:

#### Function:

### 1. Firms the skin and aids in collagen production

As we age, collagen in the skin breaks down into peptides, which send signals to skin cells, informing them to make more collagen to replace what was lost. Topical application of peptides increases this signalling, thereby increasing new collagen production.

### 2. Reduces the appearance of fine lines

By stimulating collagen production, peptides help to make the skin appear more plump and youthful.

### 3. Strengthens the skin barrier

Peptides increase cell activity and repair the skin's natural barrier, allowing it to retain water more efficiently and protect the body against foreign substances.

### 4. Locks in hydration

As you age, collagen production declines and over time, collagen level in the skin decreases. Collagen aids the skin in retaining moisture; hence, the loss of collagen also causes dehydration in the skin. Using collagen-stimulating peptides, such as palmitoyl tripeptide-1, thereby boost skin hydration by boosting collagen production.

### Package and Shipping of Cosmetic Peptide Palmitoyl Tripeptide-1 for Skin Smooth CAS 936544-53-5

Shipping:

With 3-5 work days after your payment

### FAQ of Cosmetic Peptide Palmitoyl Tripeptide-1 for Skin Smooth CAS 936544-53-5

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
